

OUTPUT NO 1

welcome to the main page

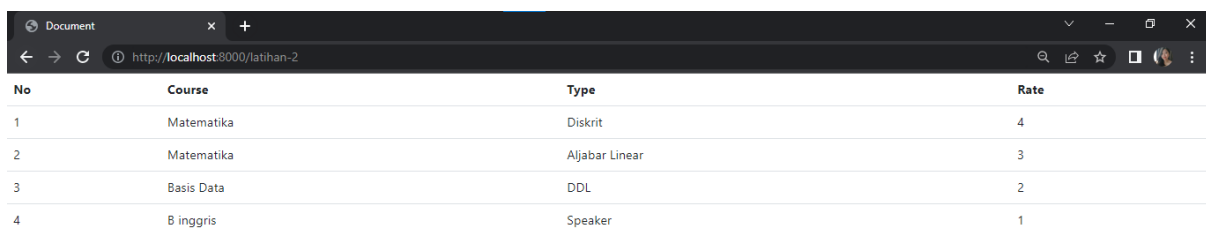

this the sub page of main page

this is the family sub page of main page

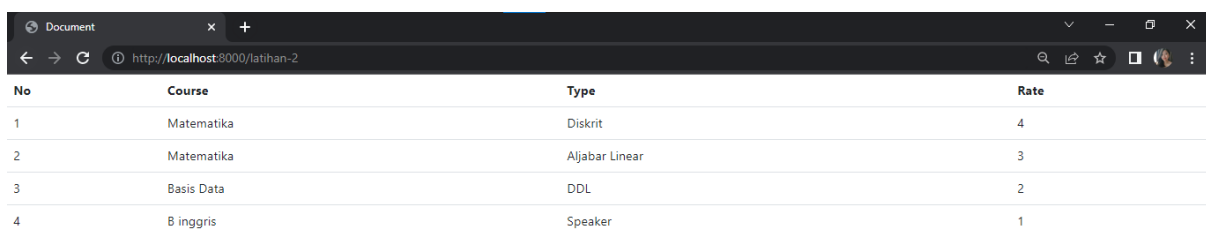

OUTPUT NO 2

Untuk mengubah bentuk table skil akademik menjadi bentuk multiple array dapat dilakukan dengan menggunakan looping/Perulangan pada data array yang akan dibuat; array dituliskan pada MainController

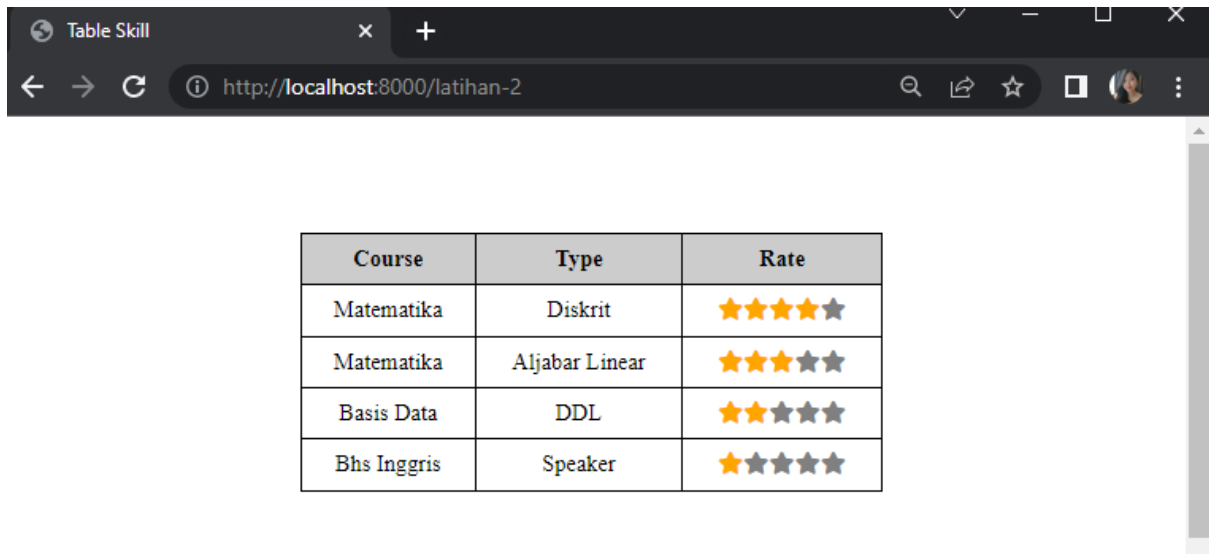

No	Course	Type	Rate
1	Matematika	Diskrit	4
2	Matematika	Aljabar Linear	3
3	Basis Data	DDL	2
4	B inggris	Speaker	1

OUTPUT NO 3

No	Course	Type	Rate
1	Matematika	Diskrit	4
2	Matematika	Aljabar Linear	3
3	Basis Data	DDL	2
4	B inggris	Speaker	1

OUTPUT NO 4

The screenshot shows a web browser window with the title 'Table Skill'. The address bar displays 'http://localhost:8000/latihan-2'. The main content area contains a table with three columns: 'Course', 'Type', and 'Rate'. The table has four rows of data. The 'Rate' column uses a five-star rating system, where yellow stars indicate a rating of 4 or higher, and grey stars indicate a rating of 3 or lower.

Course	Type	Rate
Matematika	Diskrit	★★★★☆
Matematika	Aljabar Linear	★★★★☆
Basis Data	DDL	★★★☆☆
Bhs Inggris	Speaker	★☆☆☆☆
